OBJECTIVE

Architecture student pursuing B.Arch (3rd Year), seeking an internship opportunity to gain practical exposure through live projects while strengthening my understanding of design development, construction processes, site execution, and professional architectural practice.

EDUCATION

- **Symbiosis Skills and Professional University** Pune, India
Bachelor of Architecture (B.Arch) – Currently Pursuing, 3rd Year Ongoing
- **AVMD Institute** Agra, Uttar Pradesh
Higher Secondary Education (12th)
- **Aman International School** Agra, Uttar Pradesh
Secondary Education (10th)

SKILLS

- **Software:** AutoCAD, SketchUp, Canva, Adobe Photoshop (Basic)
- **Architectural:** Space Planning, Concept Development, Architectural Presentation, Visual Communication
- **Technical:** Site Analysis, Basic Drafting, Working Drawings, Model Making
- **Other:** Design Thinking, Climate-Responsive Design, Material Studies

ACADEMIC PROJECTS

- **Yatri Niwas, Tuljapur** | *AutoCAD, SketchUp*
 - Designed a pilgrim accommodation near Tulja Bhavani Temple, Maharashtra, accommodating 360 people across dormitories, double rooms, and family suites.
 - Conceptualized "Journey Towards Inner Rest" inspired by temple mandapa planning, organized as layered public, semi-public, and private zones around twin courtyards.
 - Conducted complete site analysis (climate, sun path, wind path, SWOT, proximity) and case studies of Naurang Yatri Niwas and Somnath Guest House.
 - Prepared full architectural set: site plan, ground/first/second floor plans, sections, four elevations, and services drawings (drainage, electrical load, water supply, fire safety, waste management).
 - Specified locally responsive materials – basalt stone, exposed brick, lime plaster, and terracotta jaali – to suit Tuljapur's hot-dry climate.
- **Pre-School Design** | *AutoCAD, SketchUp*
 - Developed working drawings (ground and first floor plans, sections, elevations, centre line, and structural beam-column layout) for a multi-level school.
 - Planned classrooms, library, AV room, computer lab, amphitheater, and indoor play area considering child psychology, ventilation, color, and safe movement.
- **Daycare Center Design**
 - Designed a child-friendly daycare with focus on safety, interactive spaces, natural lighting, and intuitive circulation.
- **Guest House Design**
 - Designed a context-based guest house inspired by traditional village planning, focusing on spatial zoning, user comfort, natural ventilation, and locally responsive design elements.

CASE STUDIES

- **Naurang Yatri Niwas, Garli, Himachal Pradesh** – Studied courtyard planning, jack-arched ceilings, herringbone brick flooring, and climate-responsive load-bearing construction.
- **Somnath Guest House, Gujarat** – Analyzed modular pilgrim accommodation, curved facade planning, and climate-responsive corridors across 126 rooms.
- **Godrej Nurture, Pune** – Residential case study on waste segregation, OWC composting, and integrated waste management design.

AREAS OF INTEREST

- Climate-responsive architecture, vernacular and culturally rooted design, courtyard planning, pilgrim and community-oriented spaces, sustainable building services.

LANGUAGES

- English, Hindi
